President
MAX Energy Systems
Falls Church, VA 22042

Dear Bill,

This is a good time to write you to tell you how happy we are with our MAX Energy Systems generator. You fired it up for the first time on December 1, 2009, and we needed it February 6, 2010 when we lost power for two and a half days. We became the neighborhood cell phone charging station, warming hut and Super Bowl viewing spot.

I was happy to tell my neighbors what a wonderful experience we had with the installation. Everything went very smoothly, your professional team knew what they were doing and always showed up when scheduled.

What really gave us confidence was your total involvement with the installation. You came to our house many times during the planning stage to work out the unit's location, and you were onsite to inspect your team's work.

We appreciated the professional and trouble-free installation, and we love the confidence of knowing we will always have power.

You may use us as reference because we are confident your other clients will receive the same service that we were provided.

Regards,

Kurt and Lisa Beske
